An Evening of Sports and Leisure
Paired with Fine Spirits and Friends
Wednesday, November 12, 2008
Clarion Hotel and Conference Center

Clarke's mission is to teach deaf and hard of hearing children to listen and talk, and to provide them with the English language skills and self-confidence they need to participate in the mainstream of society and become independent, successful adults. With early diagnosis, powerful hearing aids and cochlear implants, Clarke children are entering mainstream schools earlier than ever before.

Today, more than 700 children and their families are served through educational and early childhood programs, audiological services and mainstream services at our five East Coast locations. Thousands of others benefit from our research, curriculum development and the teachers and professionals trained by Clarke who take their special skills to all parts of the world.
